WORK EXPERIENCE

Bombardier Aerospace – Frontend React Developer Intern   **January 2023 – Present**
Bombardier, Dorval, Quebec
- Write Unit Test with Enzyme for some React Components
- Doing support tasks such as fixing bugs and enhancement for the Predictive Maintenance project**.**
- Contribute by picking up tasks and attending sprint planning, sprint daily stand-up and sprint demo. Volunteer to tackle difficult bug fixing.

CGI Canada – Frontend Angular Developer Intern   **January 2022 – May 2022**
CGI, Montreal, Quebec
- Develop frontend application to help clients (personal/agent/company) manage their bookings for CGI's client who is VIA Rail Canada. The website was deployed on the production in May 2022 at https://www.viarail.ca/en., using **Angular 10.**
- Develop unit tests with **Jest in Angular.**
Contribute by picking up tasks and attending sprint planning, sprint daily standup and sprint demo. Volunteer to tackle difficult bug fixing.

Custom Canada - Business Analyst Intern   **May 2021 – January 2022**
[C.H.Robinson](#), **Montreal, Quebec**

- Accomplished the strong communication and collaboration with support staffs and Canada custom releases staffs, by delegating emails and documents every day to individual teams. Worked as an intermediate connector between documentation team, clients, and release staffs.
- Collected business requirements by connecting with support staffs and Canada custom release teams and observe the operating activities every day, documented the requirements so IT team can understand how to improve the current workflow.
- Strong attention to detail by checking all errors happened by data entry team, communicate with IT team to fix bugs or errors caused by human mistakes, as well as make sure all Canada custom release transactions go through the internal system to CBSA smoothly every day.
- Get familiar with the internal system such as Datacap (the software to import Microsoft word documents and extract data so users don't need to manually enter data), IRS3 (the internal wiki system to keep track all products/items and its custom rates, NCC (the internal transaction systems to manage and send all transactions to CBSA (Canada Border Service Agency), and the Navisphere (the US internal system to send all Canada data back to US – the head quarter center of C.H.Robinson). With this knowledge, I document all user cases and training documentations, so when new members join our team, they can refer my documentation.
- Microsoft Word, Microsoft Excel.

IT Intern & Part-time   **May 2020 – April 2021**
[Vanntechs Web Studio](#), **Montreal, Quebec**

- Accomplished the deep understanding on WordPress and WooCommerce, with plugins integration by completing 4 WordPress website projects during the time I worked there.
- Worked as a business analyst to communicate what clients need and require, with the outsource team located in India, Philippine, and Dominican Republic.
- Kept track the project timeline and updated to the company's internal Trello board and the client's Trello board.
- Kept track of client's communications and emails by the company Bitrix24 CRM software.
- Projects I completed: https://darchisystems.com/ , https://huongxua-anjou.com/fr_ca/
