PROFILE

Full-stack developer with production experience across React Native mobile, ReactJS/Next.js web, and .NET/Node.js backends. Skilled in TypeScript, C#, Firebase, and SQL Server, delivering scalable applications across platforms.

EDUCATION

Bachelor of Computer Science - General Program Co-op, Concordia University - Montreal, QC 2024

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, C#, Python (Django), SQL

Mobile & Web Frontend: React Native (Expo), ReactJS, Next.js, React Navigation, Redux, Zustand, Material UI, Tailwind CSS, Bootstrap 5, jQuery, Angular, Responsive Design

Backend: Node.js, Express.js, .NET 8 (ASP.NET Core/Web Forms), Entity Framework Core, Hangfire, Firebase Cloud Functions, REST APIs, PostgreSQL, SQL Server, MongoDB, Firestore, Mailgun, Plivo

Testing: Jest, React Testing Library, React Native Testing Library, Playwright (E2E)

Cloud & DevOps: Firebase (Auth, Firestore, Cloud Functions, Storage), Azure DevOps, EAS (Expo), IIS, Sentry, Docker, CI/CD

Tools & Collaboration: Git (GitHub, Bitbucket, Azure Repos), Yarn, ESLint/Prettier, JIRA, Agile/Scrum, Figma

EXPERIENCE

Software Developer

Tekarra Project Services

Jan 2024 – Present
Calgary, AB, Canada

- Built and shipped a cross-platform social gifting app with **React Native**, **TypeScript**, and **Expo SDK**, published to the **App Store** and **Google Play**.
- Architected **120+ Firebase Cloud Functions** with **Node.js 20** and **TypeScript**, handling auth, payments, notifications, and real-time data sync across **Firestore**, **Storage**, and **Firebase Auth**.
- Integrated **Elavon** payment processing with tokenization and gift card fulfillment, plus real-time chat and activity feeds via **GetStream.io**.
- Designed a scalable frontend architecture using **Zustand** state management, multi-stack **React Navigation**, and 10+ context providers for real-time data flow.
- Configured **EAS Build** with multi-environment profiles (development, staging, production) for **App Store** and **Google Play** submission, plus **Sentry** error monitoring and **Expo OTA** updates for rapid production releases.

Full Stack Developer (Part-time, Remote)

Allied Solutions Global

Nov 2025 – Feb 2026
Singapore (Remote)

- Developed **Good Catch Pro**, a cross-platform safety reporting app using **React Native (Expo)**, **Redux**, and **.NET 8 (C#)** backend with **Entity Framework Core** and **SQL Server**; published to **App Store** and **Google Play**.
- Implemented end-to-end **push notifications** (Expo Push API + Hangfire background jobs) and built an admin dashboard with **Next.js**, **Material UI**, and **Tailwind CSS**.
- Built custom UI components and batch execution screens for a **Manufacturing Execution System (MES)** using **ASP.NET Web Forms**, **jQuery**, **Bootstrap 5**, and **TrakSYS/ETS** in a **GMP** environment.
- Managed CI/CD and deployments via **Azure DevOps**, **EAS Build/Submit**, and **IIS**.

Frontend Developer (Co-op)

Bombardier Aerospace

Jan 2023 – Dec 2023

Montreal, QC, Canada

- Delivered aircraft **data visualization dashboards** using **React (v16→18)**, JavaScript, **Material UI**, and **Mapbox API**.
- Integrated **Node.js** REST APIs and optimized data handling, cutting page load times by **15%**; managed client state with **Redux**.
- Authored **100+** unit tests (React Testing Library + Jest) and **Playwright** e2e suites, reaching **95%** coverage and reducing manual QA effort.
- Partnered with UX to convert **Figma** prototypes into accessible, responsive web features.

Frontend Developer (Co-op)

CGI Canada

Jan 2022 – May 2022

Montreal, QC, Canada

- Optimized VIA Rail Canada's booking front-end in **Angular 10 (TypeScript)**, reducing load times by **15%**.
- Designed and deployed an internal HR system with **Java 17 (Spring Boot 2.3)**, improving operational efficiency by **20%**.
- Containerized services with **Docker** for consistent builds and deployments.

WordPress Developer (Part-time)

Vanntechns Web Studio

May 2020 – Apr 2021

Montreal, QC, Canada

- Delivered multiple client sites using **WordPress** and **WooCommerce**; examples: darchisystems.com, huongxuanjou.com.
- Coordinated with international teams (India, Philippines, Dominican Republic) and managed timelines across concurrent projects.
